

Felipe was born in Viña del Mar, Chile and has been close to music since his early youth. At the age of 8 he started classic piano lessons and when he was in his teens he nourished himself from the sound of bands like Rush, Yes, Pink Floyd and Kraftwerk. It was in this stage when he ventured with synthesizers and experienced composition and sorting. By 1998 his musical search took a turn and he projected his interest towards other music trends, closer to Chicago, Detroit house and derivatives. This interest made him start his DJ career in 2002. Now a days He is accustomed to gracing Chile's hottest clubs and festivals alongside.

His computing engineering and sound studies were a perfect complement to his music development and in 2006 his first EP was released. Currently, he has edited for record labels like Metroline, Room 9, Sound Architecture, Climatic

sound, Isgud records, House Republic, Andes music, Fumakilla and Fumalab (German label in which he actively participates) ,hes own house label, Melisma Records, place he shares with his colleague Dani Casarano, and Luciano`s Cadenza records, where he constantly Works as an active artist of their rooster and as a producer.

His fresh sound, with organic and percussion vertex, has gained him the recognition of his peers as one of the most technical Djs in the circuit, and it's a perfect complement to enjoy his sets loaded with a very classy groove of his own around the world.

Hes last releases have been very succesful and supported at an international level by artists as renowned as Ricardo Villalobos, Luciano, Richie Hawtin, Loco Dice and Laurent Garnier, just to mention some.

During this last summer he get into the road in practicaly every important spot in europe and south america, plus next year worlwide tour for hes new album in Cadenza with Dani. Really a top artist you are sure to hear of much more!!!
